

A schematic diagram of a triangular structure, labeled 10. The structure consists of a horizontal base and two slanted sides, all represented by a wavy line pattern. The base is labeled with a dimension line and the letter A. The right slanted side is labeled with a dimension line and the letter B. The top vertex is labeled with a dimension line and the letter C. The left slanted side is labeled with the number 14. The right slanted side is labeled with the number 12. A small vertical dimension line is shown at the right end of the base.
